**David J. H. Garvin, MSW, LMSW**, Catholic Social Services of Washtenaw County, Ann Arbor, MI, and  
**Jeffrie Cape, LMSW, ACSW, CAAC**, Charron Services, West Bloomfield, MI

We must have a searing and accurate analysis of the etiology of battering, or the batterer will continue to have the advantage and he will use the listener's lack of clarity towards his own end. In order to effectively intervene with batterers, on any level, we must fully comprehend WHY he has chosen to utilize this behavior. Simply knowing the right answers to this question is no longer sufficient. Today we must have absolute clarity regarding the full etiology of this decisive behavior.

At the same time we must understand how best to intervene with the abuser who has this dual problem.
